What is ATiYF?

A ten-day biennial Camp-Fest, organized by ASHTAR youth, in their 4th year of the drama training program, as their graduation project. ATiYF 5th edition is a result of the success of the four previous editions.

ATiYF aims to create a forum for exchange of experiences between local and international theatre students and emerging professionals ages (24 - 16 years). Each theatre group brings a performance, and join workshops throughout the period of the festival.

ATiYF, has hosted artists and groups from various countries; Germany, Russia, Poland, France, UK, Italy, USA, Tunisia, Egypt and Jordan.

Artivism

Every year our youth chose a title, a theme for the festival; this year's theme is Artivism. We define Artivism as artists who use their skills in socio-political activism.

ATiYF is an opportunity for mutual theatre and cultural learning, constructive dialogue and solidarity, a chance for youth to speak up freely, raise social awareness and develop global responsibility.

Artivism, enables our youth to become more active artists, citizens and social change mediators.
